1. Foreword

Flags are an important part of the identity of a country. They are a symbolic representation of the country and its ideals. Flags aim to unite the people and act as an icon of the nation. The flags of countries must be treated with respect.

The colors and symbols on each flag are illustrations of the ideals of a country and reflect the history and pride of its people. Flags are used to represent nations at global events.

The aim of the CISM Flags Manual is to provide to all CISM members a necessary consulting source applicable to the various CISM activities and events.

2. Flag Protocol

Although the protocol and military traditions of the country hosting a CISM event, CISM protocol should be taken into consideration and shall be strictly carried out.

Great care must be taken to ensure that all flags are produced according to the specifications regarding color, design and orientation.

The Local Organizing Committee (LOC) is responsible for ensuring that the flags displayed are accurate and reflect internationally recognized protocol. LOC also manages issues such as damaged flags.

Flags protocol sets shall be positioned according to the CISM event and location. The table and pictures below give more details:

CISM Event	Flags protocol set	Remarks
BOD Meetings	CISM flag and host nation flag	- Opening and Closing ceremonies - Behind the head table
General Assembly and Congress	CISM flag and host nation flag	- Opening and Closing ceremonies - Behind the head table
	Flags of the member countries attending the event - in French alphabetical order	- alongside the room - banners may be used
Military World Championship	CISM flag and host nation flag	- Opening and Closing ceremonies
	CISM flag and flag of the countries attending the event (in French alphabetical order)	- at the competition venue
	Award ceremony (champions' flags)	- competition venue or other place established for it
CISM World Games (summer and winter) and Cadet Games	CISM flag and host nation flag	- Opening and Closing ceremonies (raising/lowering) - press conference - all competition and training venues
	CISM Flag and flags of the countries attending the event - in French alphabetical order *	- main complex of competitions or a dedicated space for that - athlete's village
	Victory ceremonies (champions' flags)	- competition venues or other place established for it

* In the Opening/Closing ceremonies stadium(s), athlete's village and other dedicated space for that the flags of all nations are flown. In competition venues, only the flags of those member nations competing in the sport(s)/discipline(s) at that venue are flown. The participating member nations' flags will be displayed in French alphabetical order.

Banners displaying flags of the countries attending the event

Opening/Closing Ceremonies

Competition venue and opening ceremony

Space dedicated to display the flags from the countries attending the event

Press Conference

Award ceremony

2.1 Precedence of flags

The responsible for the protocol shall follow the order of precedence of flags:

- 1) Flag of CISM;
- 2) Flag of the host nation;
- 3) Flag of each country attending the event in French alphabetical order

2.2 Flag proportion

Flags are traditionally produced in many different sizes and shapes. However, flag protocol dictates that when massed in a display, all flags should be identical in size, in order to avoid some flags from standing out more than others and going against the CISM spirit, which promotes equality and mutual respect amongst nations. Therefore, a standard 2:3 ratio (2 height x 3 length) has been applied as the standard ratio for flags during the CISM events. The only exception to this rule is the flag of Nepal (NEP), which has a unique shape.

3. Team welcome ceremonies

Each participating member nation's flag will be raised to their respective. During this ceremony, the CISM flag will also be raised.

4. Flags displayed at Competition, Training and Non-competition Venues

When viewed from the front, flags should be displayed from left to right beginning at the point of honor. In general, the point of honor is to your left when looking from the authorities seating area towards the field of play.

All flags displays should begin with the CISM Flag, followed by the host nation flag and so by the flags from countries attending the event displayed in French alphabetical order from left to right. In general, all flags should be evenly spaced and displayed at the same level.

5. Flag Quality

The quality of the material of the flag has to be appropriate for its use. There are differences to be considered for indoor or outdoor flags.

6. Opening and Closing ceremonies

CISM flag at the Opening Ceremony

At the CISM World Games opening ceremony, a CISM flag larger than any other flag will be brought into the opening ceremony Stadium horizontally and paraded. It will then be hoisted while the CISM anthem plays. The CISM flag must fly for the duration of the CISM World Games on the most prominent flagpole in the stadium. The flag of host nation will also be raised during the ceremony.

CISM flag at the Closing Ceremony

At the closing ceremony, the CISM flag is slowly lowered from the flagpole while the CISM anthem is played.

Athletes' Parade

For the Athletes' Parade, the order of entrance of all competing member nations' flags is in French alphabetical order. The flag of the host nation enter last.

7. Victory Ceremonies

Member nation flags corresponding to the athletes that win gold, silver and bronze medals will be raised during the victory ceremonies. Only the anthem of the gold medalist(s) will be played.

All flags, at both indoor and outdoor locations, will be raised in the horizontal format. Flags will be raised in the following formation when viewed from the athletes' position on the medals podium:

TIES

If a tie occurs, two flags may be flown from the same pole during medals ceremonies. The flags will be hung in alphabetical order from top to bottom. In the event of a tie, the following scenarios describe how flags should be displayed on flagpoles or trapeze:

Tie for Gold Medal / between 1st and 2nd

Tie for Silver Medal / between 2nd and 3rd

Tie for Bronze Medal / between 3rd and 4th

DOUBLE BRONZE

For sports in which two bronze medals are awarded, like Wrestling, Taekwondo and Judo, the flag corresponding to each bronze medalist will be displayed horizontally on trapeze, according to the order shown in the official results report.

Note: *Two flags should not be flown from the same pole under any other circumstances.*

8. Death of a CISM Member during the event or when declared official mourning

In case of CISM member pass away during the CISM event or in any circumstances that was declared official mourning the flags flying at venues may be lowered to half-mast for a period of one to three days.

Should this happen, all Protocol Managers who have at their venues flags must lower them to half-mast for the period of time stated by CISM or host country.

To put the flag in the half-mast position, the flag must be raised to the top of the flagpole and then immediately lowered to the half-mast position. This means leaving from the top of the flagpole an empty space which is in length equal to the shorter side of the flag (e.g. if the flag is 2 x 3m, a space of 2m must be left from the top of the flagpole).

For the flags flown from flagpoles at indoor venues, a black ribbon can be tied to the top of the flagpole. The black ribbon will stay on top of the flagpole for the whole period of mourning decided upon by the CISM and host country.

9. Flags at Night

Protocol shall observe some remarks regarding to the night period:

- a) When specific lighting for flags exists, the lights are to remain on for the entire night;
- b) If a venue is not open for spectators during the hours of darkness, existing ambient and security lighting is sufficient and meets flag protocol standards; and
- c) It is not feasible to remove the flags each night due to the labor requirements across various Functional areas, cost, time, risk of damage, theft and margin for error when reinstalling flags.

10. Flags in General

Flag Handling - Protocol dictates a certain etiquette when handling a flag, a nation's foremost symbol:

- a) Flags should be folded when carried to and from flagpoles;
- b) No flag should be in a position lower than another flag;
- c) No flag should be smaller than another;
- d) Flags should be securely fastened so as not to fall; and
- e) When a flag visibly deteriorates, it should be replaced with a new one.

11. Anthem operations

Anthems play a key role in Games ceremonies. All Member Nations have to approve their national anthem recording that will be played by the LOC.

The LOC shall only use the short approved versions. The approximate duration of such recordings should be similar for all national anthems, not exceeding 1 minute 30 seconds.

12. Flags of Cism Nations Members

Flags are presented in their horizontal and vertical formats, ordered in French.
