5 SPECIAL CISM VOLLEYBALL RULES

The Fédération Internationale de Volleyball (FIVB) rules and sports regulations apply for CISM Volleyball Championships except as modified herein.

5.1 HOSTING NATION

The hosting Nation will:

- Provide additional linespersons and referees to meet requirements;
- Provide qualified official scorekeepers;
- Provide official game balls that conform to FIVB specifications approved for the Olympic Games and used at the present FIVB World Competitions.

5.1.1 Format for the Competition

The competition format in Annex 2 will be used based upon the number of participating teams. The President of the PCSC for Volleyball is allowed to change the sequence of games depending on the number of courts available, television broadcasting, or other reasons that may impact the championship. In exceptional cases, when the organizing country cannot accept all countries wishing to participate, the President of the CISM Sport Committee for Volleyball will consider the participation ranking list and a “Wild Card” system, if necessary.

5.1.2 Participation Ranking List

For participation at a CISM World Military Volleyball Championship, the President of the CISM Sport Committee for Volleyball will prepare a participation ranking list for selecting nations, based upon three components:

- previous participation;
- hosting; and
- performance results.

Nations will be awarded points based upon these criteria as follows:

Previous Participation

- 2 points for each time a Nation has participated in a championship, over the last 5 championships held.

Hosting

- 10 points for each time a nation has hosted a championship over the last 5 championships.
- 3 points for each time a nation has hosted a regional championship over the last 3 championships.

Performance Results

- Nations are awarded points based upon their team's performance results at each of the military world championship attended over the past 5 championships, in accordance with the following scale:

Result	Points
1st and 2nd places	12 points
3rd and 4th places	10 points
5th and 6th places	8 points
7th and 8th places	6 points
9th and 10th places	4 points
11th and following places	2 points

The nation with the greatest total points (past participation, hosting and previous performance results) over the past 5 championships shall be granted 1st consideration for participating at the next championship, followed by the nations with the next greatest number of points

In order to achieve a fair continental distribution (CISM Sports Policy), the following examples are to clarify the allocation for participation in a WMC.

- **Competition for 8 teams:** host country, the champion country, 1 team for each continent by ranking and the best 2 teams in the overall ranking.
- **Competition for 10 teams:** host country, the champion country, 2 teams for each continent by ranking, in a total of 10 participants.
- **Competition for more than 10 teams:** host country, the champion country, 2 teams for each continent by ranking, in a total of 10 participants. The remaining vacancies will be distributed by the general ranking.

. In case of a tie in points ranking, the following tie breaking criteria will be applied, in order:

- The nation which has the most participation within the past 5 championships will be ranked ahead of other nations within the tied point ranking;
- If this criteria still results in a tie, performance results from the last championship in which the nation competed will be used to determine ranking between tied nations; and
- In case of a three-way tie, the performance results from the last championship in which the nations competed will be used to determine ranking between tied nations.
- Finally, should this still result in a tie, the more recent participation will be used to determine ranking between tied nations.

The President of the CISM Sport Committee for Volleyball is allowed to provide a country a Wild Card (maximum of 20% of the number of possible participants on the invitation file) entry into a championship when it is deemed to be in the best interest of promoting the values of CISM or the interests of the sport within a CISM region or of the host nation. This decision will need to be balanced with the impact on other participating nations. Preference will be given to the country that comes from a continent that is understaffed.

5.1.3 Discipline

Should a player be ejected from a set for unsportsmanlike conduct or any other flagrant violation which may cause embarrassment to CISM, the player will not be allowed to compete in later matches at the same championship. The Jury of Appeal is the sole judge in this matter.

5.1.4 Formation of Pools

The performance of teams will be determined by the CSC for Volleyball, based upon the results of nations at their two most recent championships, within the past five championships. The performance results points identified in section 5.1.2 will be used for this seeding.

5.1.4.1 When there are a maximum of four (4) teams in each preliminary group, the teams will be distributed in the first two positions of each preliminary group based upon the respective CISM Volleyball performance results and adopting the serpentine system.

5.1.4.2 When there are five (5) or more teams in each preliminary pool, the teams will be seeded in the first three positions of each preliminary pool based upon the CISM Volleyball performance results and adopting the “serpentine” system. This is named “seeding of teams”.

5.1.4.3 All teams not seeded will be drawn to take other available positions in the remaining lines, following the respective CISM Volleyball performance results.

5.1.4.4 The CISM reserves the right to seed the host team as head of pool A and proceed with the remaining teams according to the above procedures.

5.1.5 Drawing of Lots

After the composition of the pools, numbers are drawn to determine the order of the matches in each pools according to the “Berger Table”.

5.1.6 Training Conditions

The host nation shall provide the teams a facility for practicing prior to the opening of the championship and during the championship. The Organizing Committee shall prepare a training schedule (that must be approved by the CSC for Volleyball in which each team is guaranteed the exclusive use of a training facility for at least one (1) hour a day. Wherever possible, each team will have at least one (1) hour of training on each competition court, at minimum, the day before their first match on that competition court.

5.2 FORFEIT

If a team withdraws from participation after the competition has begun, the CSC for Volleyball has authority to apply a sanction for future competitions. In both cases sanctions applied will be based on the circumstances of the withdrawal. A minimum sanction may be a participation point reduction.

5.2.2 After First Round

If a team withdraws from the competition after the first round pools are established and was:

- in a pool where the number of teams were equal to or greater than the number of teams in the other pools, play will continue as established. The position in the pool where the team withdrew will be considered as a "bye" position.
- in a pool where the number of teams were less than the number of teams in the other pools, an additional organizing meeting will be held to re-establish the first round pools. The competition will be re-organized with the reduced number of teams.

5.2.3 During the conduct of Pool competition

If a team withdraws during the conduct of pool competition, the results of competition from the team that withdrew will not be considered. All other matches within the pool will be conducted as if the position of the withdrawing team were a "bye".

Matches that can be scheduled earlier without hardship will be re-scheduled.

5.2.4 After a Round is complete

If a team withdraws after a round is complete and before the start of the next round, the relative positions of the teams in the completed round are retained. All teams standing below the withdrawing team move upon position.

5.2.5 During a Final Round

If a team withdraws during a final round, the team withdrawing is considered to have never qualified for the round. Any results from competition with the withdrawing team are not considered. The schedule of remaining matches will be reviewed by the CSC for Volleyball and changed, if possible to accelerate completion of the round. The final standings will be adjusted, if appropriate, so that no final place is vacant.

5.3. FINAL COMPETITION RANKING

Ranking of teams is determined by the number of points obtained during the Championship in accordance with Article 8 of the FIVB Sports Regulations. The team with the greatest number of points is the champion. In case of a tie for a position in any round, the FIVB Event regulations criteria will be applied.
