1 INTRODUCTION

The World Military Shooting Championship is in principle organized every year under the patronage of the International Military Sports Council (CISM). The organizing country is appointed during the General Assembly being held minimum one year before the championship.

The place and dates of the championship must be communicated and coordinated with the International Shooting Sport Federation (ISSF) and World Shooting Para Sport (WSPS).

The Specific Regulations for Shooting will primarily govern the World Military Shooting Championship but also continental championships, regional championships, regional tournaments and other international military shooting competitions.

Except for some modifications as mentioned in these regulations, in particular with regard to the Military Rapid Fire in Rifle- and Pistol-Shooting, the ISSF Rules for Rifle-, Pistol- and Shotgun-Shooting will be in force. It is obligatory for all chiefs of mission to be in possession of up-to-date CISM and ISSF-Regulations.

The working language is English. In the event of discrepancies arising from interpretation of rules, the English text is decisive as per ISSF.

2 WORLD MILITARY SHOOTING CHAMPIONSHIPS

2.1 NAME

World Military Shooting Championships are called: "(NUMBER) WORLD MILITARY SHOOTING CHAMPIONSHIP (Year) (CISM Logo)".

2.2 PREPARATIONS

Minimum six Month before the start of the World Military Shooting Championship, the President or his deputy and the Secretary of the CISM Shooting Committee will be appointed to act on behalf of CISM in an advisory capacity to the organizing nation. The adviser must visit the organizing country to discuss all matters concerning the competitions and will offer such advice as deemed appropriate. After conclusion of his tour, he will submit a report. A copy of this report will be sent to the organizing nation. The costs and expenses of the visit are to be paid by the organizing country.

3.4.5 Specials
In addition to the examples of programs in 3.3.3 and 3.3.4, the host nation is responsible for organizing CSC Shooting Meetings and other activities as mentioned in CISM Regulations, Chapter VII / VIII.

The host nation must inform the President of the CISM Shooting Committee of any major deviation from provisions under article 3.3. The CSC Shooting is empowered to decide certain modifications required by local conditions.

4 ORGANISATION
The general organization of CISM-competitions is described in CISM Regulations, Chapter VII / VIII. Therefore, only supplementary regulations for CISM-Shooting are listed below.

4.1 TECHNICAL DIRECTION SUB-COMMITTEE
This committee will be in charge of the technical direction of the championship and have a responsibility for preparing the championship to include the following points:
- Choice of facilities
- Program of the events
- Training facilities and provisions for directing the championship
- Ensure that the championship will be organized and conducted according to the existing CISM and ISSF Regulations.
- Nominate qualified officials in charge of the technical direction of the championship according to the CISM and ISSF Regulations.

4.2 JURY SELECTION
PCSC selects the Jury Members before the PET with assistance from the host country. The Jury will be confirmed during Preliminary Meeting. The Jury Members must be at the range during all PET Training. Under no circumstances can any member of the Juries belong to the Organizing Committee.
4.3 DRESSCODE FOR RANGE OFFICIALS AND JURY

Juries and other range officials should be distinguishable on the range from competitors, team officials and spectators. The PCSC will agree the dress with the host country. Dress should be smart but military uniform may be appropriate on the range for officials.

4.4 JURIES FOR RIFLE AND PISTOL

4.4.1 Classification Jury for Rifle and Pistol

A classification jury will be appointed for each competition with sufficient personnel to supervise each range. A sub-classification Jury may be necessary if the ranges are not collocated. The chairman and members of Classification Jury are appointed prior to PET and confirmed during the preliminary meeting. They are discharged after the official closing of the competition.

**Composition**
The Classification Jury should include at least three qualified members who can be either civilian or military personnel. The host country must nominate a minimum of one member and the other members will be selected from the participating missions. The members of the Classification Jury should hold an ISSF Judges Licence A or B and have completed the ISSF Electronic Scoring Target course.

**Duties**
The Classification Jury is responsible for the official startlists, results, timing and scoring procedures. See also ISSF Rules.

4.4.2 Technical Jury for Rifle and Pistol

At least three juries have to be appointed: One for rifle 300m, one for rifle 50m and one for pistol 25m. The chairman and members of the Rifle and Pistol Jury are appointed prior to PET and confirmed during the preliminary meeting. They are discharged after the official closing of the competition.

**Composition**
Each Technical Jury is composed of a chairman and at least two qualified members who can be either civilian or military personnel. The organizing country must nominate one (or two) member(s) and two (or one) member(s) will be selected from the participating missions. The members of the Technical Juries should hold ISSF Judges License A or B.

**Duties**
The Technical Juries are responsible for the satisfactory progress of a competition and must ensure that the conduct of the events is according to CISM- and ISSF Regulations. For the detailed duties of the Technical Juries see CISM- Regulations, Chapter VII / VIII and the ISSF Rules and Regulations.

4.4.3 Equipment Control Jury for Rifle and Pistol

The Equipment Control Section will be assisted and supervised by Jury Members. The chairman and members of the Equipment Control Jury are appointed prior to PET and confirmed during the preliminary meeting. They are discharged after the official
closing of the competition.

Composition
Each Equipment Control Jury is composed of a chairman and at least two qualified members who can be either civilian or military personnel. The organizing country must nominate one (or two) member(s) and two (or one) member(s) will be selected from the participating missions. The members of the Equipment Control Juries should hold ISSF Judges License A or B.

Duties
Equipment Control Juries supervise the testing of athletes clothing and equipment.

4.4.4 Jury of Appeal for Rifle and Pistol
See CISM Regulations, Chapter VII / VIII.
The chairman and members of the Jury of Appeal are appointed prior to PET and confirmed during the preliminary meeting. They are discharged after the official closing of the competition.

Composition
Each Jury of Appeal is composed of a chairman and at least two qualified members who can be either civilian or military personnel. The country must nominate one member and two (or one) member(s) will be selected from the participating missions. The members of the Equipment Control Juries should hold ISSF Judges License A or B.

Duties
The Jury of Appeal is responsible for making final decisions on all written appeals against decisions by Technical and Equipment Control Juries. Decisions by the Jury of Appeal and Classification Jury may not be appealed!

4.5 JURIES FOR SHOTGUN

4.5.1 Technical Jury Shotgun
All persons who are designated to serve as an official in CISM competitions must possess a valid qualification appropriate to the level of the competition.
The chairman and members of the Shotgun Jury are appointed prior to PET and confirmed during the preliminary meeting. They are discharged after the official closing of the competition.

Composition
The jury includes at least five qualified members who can be either civilian or military personnel. The host country may nominate one (or two) member(s) and four (or three) members will be selected from the participating missions. The Jury members should hold ISSF Judges License A or B.
The Chairman and members of the Jury are appointed during the preliminary meeting and discharged after the official closing of the competition.
Under no circumstances can any member of the Jury belong to the Organizing Committee.

Duties
The Jury is responsible for the satisfactory progress of a competition and must ensure that the conduct of the events is according to CISM- and ISSF Regulations. For the detailed duties of the Shotgun Jury see the ISSF Rules and Regulations and CISM-
Regulations, Chapter VII / VIII.

4.5.2 Jury of Appeal for Shotgun

See CISM Regulations, Chapter VII / VIII and ISSF Rules and Regulations. The chairman and members of the Jury of Appeal are appointed during the preliminary meeting and discharged after the official closing of the competition.

Composition
Each Jury of Appeal is composed of a chairman and at least two qualified members who can be either civilian or military personnel. The country must nominate one member and two (or one) member(s) will be selected from the participating missions. The members of the Equipment Control Juries should hold ISSF Judges License A or B.

Duties
The Jury of Appeal is responsible for making final decisions on all written appeals against decisions by Technical and Equipment Control Juries. Decisions by the Jury of Appeal and Classification Jury may not be appealed!

4.6 PROTESTS AND APPEALS

According to ISSF Rules and Regulations.

4.7 OFFICIAL MEETINGS

See CISM Regulations, Chapter VII / VIII.

4.8 ANTI – DOPING CONTROL

Doping is defined as:
the presence of prohibited substances or its metabolites or markers in an athletes bodily specimen
-the use or the attempted use of a prohibited substance or a prohibited method
-the refusing, or failing without compelling justification to submit to sample collection after notification

Doping, according to this definition, is strictly forbidden in CISM, and especially in Shooting.

At least at each CISM Military World Shooting Championship, if possible also at other Major events, anti-doping controls will be carried out according to the latest CISM Anti Doping Regulation (CISM Regulations, Chapter IX) that are fully in line with the World Anti-Doping-Code of WADA.

Specificities of the ISSF Anti Doping Regulation will be considered when necessary. The operational responsibilities of the anti-doping controls will lie with the Anti-Doping Commission formed for the considered event. The composition and the tasks of this commission are defined in the CISM Anti-Doping Regulation.

At World Military Shooting Championships in Rifle & Pistol-Shooting at least 6 tests have to be carried out without considering world records.
At World Military Shooting Championships in Shotgun-Shooting at least 6 tests have to
be carried out without considering world records.
The PCSC or his deputy can define the number of Doping tests.
Latest Six Month before the start of the World Military Shooting Championship, the PCSC
or his deputy defines the numbers of Doping tests.

The list of prohibited substances and methods used for the anti-doping testing in CISM
events will always be the current WADA-List.

5 SPECIAL REGULATIONS

5.1 GENERAL
The ISSF Regulations will be in force with the necessary modifications as mentioned in
this article. The CISM Shooting Committee is empowered to decide certain
modifications required by local conditions.

5.2 SHOOTING – EVENTS 300M RIFLE
Only standard rifles following the ISSF Regulations will be admissible both for the 300m
Standard Rifle program and 300m Military Rapid Fire Rifle program.

The 300m Standard Rifle 3 Positions will follow the the ISSF Rules and Regulations.

5.2.1 Shooting - Regulations for 300m Military Rapid Fire Rifle
5.2.1.1 Program
The 300m Military Rapid Fire Rifle-Program consists of a shooting event of 60
competition-shots divided into 3 positions of 20 shots each. Each position consists of 2
series of 10 shots and is fired in the following order:

Kneeling: 2 series of 10 shots each. Each series in 2 minutes.
Prone: 2 series of 10 shots each. Each series in 1 minute 30 seconds.
Standing: 2 series of 10 shots each. Each series in 2 minutes.

The Chief Range Office must call athletes to the line at least 15min before the
Preparation and Sighting Time starts. The athletes are permitted to handle their guns,
dry fire or carry out holding and aiming exercises before Preparation and Sighting Time
starts.

Before the competition start there will be a 15min Preparation and Sighting Time. Commands for sighting shots:
“15 minutes preparation and sighting time - START”
At 30 sec. before the end of the Sighting Time, the CRO will command “30 SECONDS.”
At the end the CRO commands “ End of Preparation and Sighting Time STOP”
“UNLOAD”

This will be followed by a pause when the Technical Officer clears the targets for
MATCH firing.
Each series starts with the command:
"The odd/even numbers get ready for the (kneeling, prone, standing) position"
"Load".
After exactly one minute, the Range Officer will command: "Attention, three- two-one-
START".

Each series fired with the od number targets first, followed by the even number targets.

Before the command “START” is given, the rifle must be held in the ready position, i.e.
the weapon is not shouldered.

Commands for the end of a serie:
3sec before the end of the series, a whistle tone will be given. Shots fired after the end
of the whistling will be recorded as zero.

At the end the CRO will give the command “UNLOAD”

Refires will be shot in the next series or at the end of each position.

Between each shooting position the CRO will give the command: “Ten Minutes
Changeover and Sighting Time Start!”

At 30 sec. before the end of the Changeover and Sighting Time, the CRO will give the
command “30 SECONDS.”

At the end the CRO will give the command “CHANGE OVER TIME STOP” “UNLOAD”

In the Change Over and Sighting Time the shooters may handle their rifles to prepare
them for the next position, remove safety flags, dry fire and fire unlimited sighting shots is
permitted

5.2.1.2 Safety (Penalties, ready-position, more than 10 shots, etc.)

a) Safety is of the highest importance. After each series, the command “UNLOAD” will
be given [cartridges and/or magazines are removed and the action is open and
b) bolt back].
The competitor is allowed to fill an unlimited number of magazines for this
programme in the 300 m Military Rapid Fire Rifle. The competitor is only allowed to fill
the magazines when they are on command or during the PT and Change Over and
Sighting Time

b) All magazines have to be empty at the end of the relay, before the shooter leave
the firing point. The range officers or the jury must confirm this.

c) If a competitor fires one or more shots between the command "Load " and "Start" the
shots will count but the shooter will lose the same number of shots with the highest
value in this series.

d) If a competitor moves his rifle from the ready position to the firing position before the
command "Start", he will first receive a warning. If repeated, he will lose 2 points from
the score of that series.

e) Additional shoots and Crossfires are handled as in the ISSF rules.

5.2.1.3 Malfunctions 300m Military Rapid Fire

If a competitor should have malfunctions in the 300 m Rifle Military Rapid Fire, he has to
inform the jury by raising his free hand. The following rules must be applied. The shooter
will have two (2) AM per relay.
a) Allowable malfunctions (AM) are:
- A bullet is lodged in the barrel.
- A part of the action is broken.
- A magazine is jamming

The number of shots already fired must be recorded and the series may be repeated. The shooter must fire all 10 shots at the target in any repeat series, unless a further malfunction occurs. Any shot(s) not fired or not hitting the target must be scored as a miss. Final Score is the total of the ten lowest value shot-scores overall. The shooter may continue to shoot the rest of the event.

The refire series will be fired in the next series. Additional series will be added as necessary in that position.

The malfunction must be fixed within 5min. or the shooter can continue the relay with a replacement rifle but without additional sighting shots. Any replacement rifle must be checked by the equipment control jury after the relay.

b) Non-allowable malfunctions (NAM)
All other malfunction not described in rule 5.2.3.4.1.a are NAM. In the case of a NAM every shot that is not fired will be scored as a miss (zero). No re-fire or completion is permitted. Only the values of shots fired will be credited to the shooter. The shooter may continue to shoot the remainder of the relay.

c) Malfunctions In sighting shots.
The malfunction must be fixed within the sighting time. or the shooter can continue with a replacement rifle but without additional sighting time. Any replacement rifle must be checked by the equipment control jury after the relay.

If a malfunction (AM or NAM) occurs in the sighting shots it must not be registered as a malfunction.

5.2.2 EST Score Protest
If an athlete protests the value of an indicated shot on an EST, the protest will only be accepted when it is made before the next shot or series is fired. A protest fee must be paid before the EST procedure starts. If a protest is made concerning the value of a shot, the athlete will be requested to fire a repetition series. The same procedure as an AM apply. If the protest concerning a shot value, other than zero (0) or failure to register, is not upheld, a two (2) point penalty will be deducted from the score of the disputed series. The protest fee will not be returned. The team official or athlete has the right to know the resolution of the disputed shot.

5.2.3 When a Shot Fails to Register or Display on the Monitor
See ISSF Rules
5.3 SHOOTING – EVENTS 50M WOMEN RIFLE

5.3.1 Shooting - Regulations for 50m Women Rifle Prone
This program takes place according to the ISSF Rules and Regulations for Women 50m Rifle Prone.

5.3.2 Shooting - Regulations for 50m Women Rifle 3 Positions
This program takes place according to the ISSF Rules and Regulations for Women 50m Rifle 3 positions.

5.4 SHOOTING – EVENTS 25M PISTOL, MEN AND WOMEN

5.4.1 Shooting - Regulations for 25m Men Center Fire Pistol
This program takes place according to the ISSF Rules and Regulations for the Center Fire Pistol-Program.

5.4.2 Shooting-Regulations for 25m Men Military Rapid Fire Pistol
This program takes place according to the ISSF Rules and Regulations for the Standard Pistol-Program with the necessary modifications as mentioned in the rules below.

5.4.2.1 Weapons, Ammunition and Targets
Weapons and ammunition according to the ISSF Regulations for Center Fire Pistol. Targets to be used are the ISSF-Rapid Fire Pistol – Targets.

5.4.2.2 Program 25m Men Military Rapid
The 25m Men Military Rapid Fire Pistol-Program consists of a shooting event of 60 competition shots divided into three stages of 20 shots each. Each stage consists of four series of 5 shots and is fired in the following order:
- 4 series of 5 shots each in 10 seconds per series
- 4 series of 5 shots each in 8 seconds per series
- 4 series of 5 shots each in 6 seconds per series
Before the competition begins, a series of 5 sighting shots in 10 seconds may be fired.

5.4.2.3 Malfunctions in 25m Pistol Military Rapid Fire: Handling and number
If a competitor should have malfunctions, the ISSF Rules and Regulations for the Standard Pistol Event are applicable. Only two Malfunction (AM or NAM) are allowed in the 60 shot Military-Rapid-Fire-Program.

5.4.3 Shooting Regulations for 25m Women Pistol
This program takes place according to the ISSF Regulations for the Women 25m Pistol-Program.
5.4.4 Shooting Regulations for 25m Women Military Rapid Fire Pistol
This program takes place according to the ISSF Regulations for the Standard Pistol-Program with the modifications as mentioned in 5.4.2.1. concerning targets, 5.4.2.2 and 5.4.2.3.

5.4.5 Individual Ranking all competition 25m Women and Men
The final ranking for the medal-positions in the case of a tie is done by a shoot-off according to the Rules listed below. The rest of the rankings will done by the “Tie breaking Rules”-method according to the ISSF rules.

5.4.6 Shoot-offs for Ties in 25m events
Tied athletes will be allocated new firing points on the range though the drawing of lots by the Technical Jury. If more athletes are tied than target groups are available, the firing sequence will also be determined by the drawing of lots.

5.4.6.1 Shoot-off procedures

25m Pistol Women
Preparation time two (2) minutes
Sighting Series: One (1) five (5) shot series in the rapid fire
Shoot-off series: One (1) five (5) shot series in the rapid fire cours

25m Center Fire Pistol Men
Preparation time two (2) minutes
Sighting Series: One (1) five (5) shot series in the rapid fire
Shoot-off series: One (1) five (5) shot series in the rapid fire cours

25m Military Rapid Fire Men and Women
Preparation time two (2) minutes
Sighting Series: Five (5) shots in a 6 seconds series
Shoot-off series: Five (5) shot in a 6 seconds series

5.4.6.2 Further Tied score
In the event of a further tied score, a second shoot-off consisting of one (1) series must be fired. If the tie is still not broken, the shoot-offs will continue until the ties are broken.

5.5 SHOOTING – EVENTS SHOTGUN

5.5.1 Shooting - Regulations for Trap Men and Women
This program takes place according to the ISSF Rules and Regulations for Trap.

5.5.2 Shooting - Regulations for Skeet Men and Women
This program takes place according to the ISSF Rules and Regulations for Skeet.

5.5.3 Ranking in all Shotgun-Competitions in CISM
Individual Ranking
The final ranking for the medal-positions in the case of a tie is done by a shoot-off according to ISSF-rules. Rankings below the lowest medal-position is done by the
“Count-Back”-method according to the ISSF rules. Ties with perfect scores will not be broken but will share first place with the same rank. The next rank is then appropriately numbered. 

Team Ranking Shotgun 
If two (2) or more teams have the same scores, ranking must be decided by the combined score of the team members in the last round of targets, then by the next to the last round, etc. until the tie is broken.

5.6 QUALIFICATION FOR THE INDIVIDUAL COMPETITIONS IN RIFLE AND PISTOL EVENT

At the preliminary meeting, the host country must inform about the number of firing points that will be in use in the individual competitions. (In general, all available firing points should be used, except for 2 (left, right) that will be in reserve). Based on this information, the rules for qualification for the individual competitions will be:

a) **Not less than 80% of the number of competitors shall be qualified by their results in the team competition:**
   - 60% shall be qualified directly by their ranking in their respectively relays.
   - 20% shall be qualified by best scoring independent of relays.

b) The remaining firing positions (not more than 20% of the competitors) will be filled up in accordance to scoring among nations not having competitors qualified for the individual competition as referred in item (a). Only one participant from each of these nations can qualify.
   If there is no need for all of the 20% nationality places, the rest of final places are qualified by highest results.

Shooters with DNS and DSQ have no right to start in the Individual competition, and are not counted in the calculation for the individual event

Example
The calculation in detail for the 60 % is as follows:

40 Targets in Total, to use for the Finals = 38 (reserve 1 left, 1 right).

38 Targets as Total 
- 60% are 22.8 targets so 23 Shooters starts directly from the relays 
- 20% are 7.6 targets so 8 Shooters starts from the best individual results over all relays 
- 20% are 7.6 targets so 7 Shooters (instead of 8) starts from the nations without start places in the 80% above

Calculation for the 60 % (23 shooters) for example 94 shooters, 3 Relays:
- Relay 1: 28 shooters with results (without DNS, DSQ)
- Relay 2: 34 shooters with results (without DNS, DSQ)
- Relay 3: 32 shooters with results (without DNS, DSQ)

23 shooters of a total of 94 shooters are 24.5% 
-24.5% of 28 shooters in relay 1 are 6.8 or 7 shooters 
-24.5% of 34 shooters in relay 2 are 8.3 or 8 shooters 
-24.5% of 32 shooters in relay 3 are 7.8 or 8 shooters
In order to ensure equal conditions for the best nations in the team competitions, the **best 10 nations** of the last shooting military world championship shall have the same number of shooters in each relay.

*(For example in a 3-relay match: 1-1-1).*

### 5.7 CISM WORLD RECORDS

CISM world records may be established in World Military Shooting Championships which had been conducted according to CISM regulations. CISM world records may be established in qualification competitions (team competition) as well as in individual competitions. Team records may only be established in team competition.

**Inner Tens** do not count for the World Record.

6.9 CISM CADET SHOOTING - EVENTS

6.9.1 300m Rifle Cadet

Target: official ISSF 300m Rifle Target. Full ring scoring (no inner tens)

6.9.1.1 The 300m CISM Cadet Rifle Match

The match consists of a prone shooting event of 30 competition shots divided into two phases of 15 shots each fired in the following order:
15 Single Shots in 60 seconds each, scoring after each shot.
3 series of 5 Shots each in 60 seconds, scoring after each series.

Before the competition begins, a limited number of 20 sighting shots may be fired within a time limit of 15 minutes. After each sighting shot the marker must show the value and the position of the hit on the target. The competitor may observe the hits with the telescope.

6.9.1.2 The 300m Cadet Military Rapid Fire Rifle

The program consists of a shooting event of 30 competition shots divided into two positions of 15 shots each. Each position consists of 3 series of 5 shots and is fired in the following order:
Kneeling: 3 series of 5 shots each. Each series in 60 seconds.
Prone: 3 series of 5 shots each. Each series in 30 seconds.

6.9.1.3 Sighters

see Cadet Rifle Match.
The sighting shots can be fired in any position as long as the changing of positions does not disturb another competitor. Competitors will be given 10 minutes to change position in match firing.
6.9.1.4 Commands

Commands for sighting shots:
“The preparation and sighting time - START! – 30seconds – STOP!”
Each competition series starts with the command: “Get ready for the position (prone single shots, prone, kneeling)” – (60 sec) – LOAD!”. After “get ready…” the magazines can be filled by needed number of the ammunition only.

After one minute, the Range Officer will command:
“Attention, three - two - one – fire”. On “fire” all the targets are hoisted simultaneously to the firing position. The firing in both matches will cease with a 3 seconds long whistle tone. During the whistling (57 seconds to 1 minute or 27 seconds 30 seconds), the competitors may fire. Each shot fired after the end of the 3 seconds whistling will be recorded as zero.

In the end of the shooting time the targets will be lowered. The single shots are fired simultaneously (odd/even). When there are series to shoot the odd number firing points shoot first, followed by the even number targets. Refire will be shot at the end of each position or the shooter may be resquaded at the decision of the Technical Jury.

After each series in prone and kneeling position, the targets are shown one minute to the competitor to allow him to observe the hits. The competitor is allowed to use a telescope during the entire competition.

Before the command “fire” is given, the weapons are held in the ready position, i.e. the weapon is not shouldered.

Between shooting positions is commanded: “ten minutes changeover time, START!”

6.9.2 25m Pistol Cadet

Targets: official ISSF 25m Precision and Rapid Fire Target.

6.9.2.1 CISM Cadet Pistol Match

The match consists of 30 competition shots divided into a precision phase and a rapid fire phase in which 15 shots in each phase are fired in the following order:
Precision Fire: 3 series of 5 Shots in 2 minutes, scoring after each series.
Rapid Fire: 5 Shots in 50 Seconds 5 Shots in 40 Seconds 5 Shots in 30 Seconds

6.9.2.2 Cadet Military Rapid Fire Pistol

The match consists of 30 competition shots divided into three phases of 10 shots in each phase fired in the following order:
- 2 series of 5 shots each in 30 seconds per series
- 2 series of 5 shots each in 20 seconds per series
- 2 series of 5 shots each in 10 seconds per series

6.9.2.3 Sighters

Sighters: 2 x 5 Shots in 2 Minutes

6.9.2.4 Commands

“For the sighting serie (first serie/next serie)
- LOAD! – (60 sec) – ATTENTION! – FIRE - START!”
6.10 THE CHALLENGE CUP “BEST CADET NATION”
This competition is shot in a separate competition.
1 male rifle, 1 female rifle, 1 male pistol and 1 female pistol shooter per nation start as a team.
Each shooter shoots the Cadet Military Rapid Fire Competition in his or her class. The team score is the sum of scores of all team members.
The Nation with the highest team score wins the competition.

6.11 MALFUNCTIONS
One allowable malfunction per competition.

6.12 TIE - BREAKING
Tied scores will be broken by the highest number of tens, nines, eights etc of all team. If the tied score still remains, the same ranking is given.

6.13 WEAPONS
Military service rifles and pistols of the same type of the nation organizing the Cadet Games are used for all competitors. Any modifications of the weapon will result in a disqualification.

6.14 CLOTHING, GLASSES AND OTHER HELPS
For clothing, only the field uniform with according cap is allowed. No special shooting glasses, straps, eye-covers or hats are allowed.

7 CHECKLIST FOR WORLD AND INTERNATIONAL MILITARY CHAMPIONSHIPS

7.1 GENERAL PROCEDURES FOR ORGANIZING COMMITTEES
Preparation of Application:
☐ Review CISM Policy Manual and CISM Manual of Procedures and CISM Shooting Regulations; identify requirements
☐ Establish a general timetable. Ensure that dates are realistic and give sufficient time for completion of important items. Allow adequate time for responses from member nations
☐ Estimate accommodation and transportation requirements, and make provisional arrangements
