1. INTRODUCTION

THE CISM SPORT CLIMBING

The International Military Sports Council, known by its acronym "CISM", is an international sports association composed of the armed forces of member nations accepted by the General Assembly. CISM is open to the armed forces of all nations.

The fundamental aim of CISM is to promote sport activity and physical education between armed forces as a means to foster world peace. This ideal is encapsulated in the CISM motto "FRIENDSHIP THROUGH SPORT".

Sport climbing has been part of the CISM sports since 2010 when sport climbing was included in the Military World Winter Games program. At the Games, the first tournament was held from 21 to 22 March 2010 in Italy where 45 athletes (men and women) competed in the discipline "lead". The next competition was held in France in 2013. In 2017, the tournament was organized by Russia. It was held in Sochi from 24 to 27 February. Seventy (70) athletes from Russia, Spain, Belgium, Slovenia, Italy, Austria, Germany, France, Switzerland and Kazakhstan fought for the medals. The most impressive number of awards were played during this tournament. Participants competed in bouldering, lead and 2 types of speed - classic and record.

The first Military World Championship in sport climbing was held in 2018. Athletes competed in Moscow in the CSKA sports complex from 28 November to 2 December. 33 athletes from Russia, Switzerland, Austria, Spain, Kazakhstan and Slovenia participated in the tournament.
